

## UP-TO-DATE GAMES SHOWN AT STORES

Wide Variety of Toys for  
Early Shoppers to Se-  
lect From.

### SOME SUGGESTIONS FOR THE SHOPPERS

A stroll through toyland today.  
New Christmas goods are arriv-  
ing daily.

Merchants still urgently advise  
early shopping.

You can get a toy flying machine  
that really flies, from 25 cents up  
to \$3.

A piano, with an automatic play-  
er attachment, is out this season;  
price about \$1.

Children's theaters, fully equipped,  
can be bought, prices from \$3 to  
\$10.

Exact duplicates of some of their  
large furniture pieces are being put  
out by one furniture house in doll's  
sizes.

You'll find a lot of new games  
for 25 cents and up.

In describing gifts for grownups the  
past two days, I've really been neglect-  
ful of the children, who seem to have a  
well-defined idea that Christmas is more  
for them than anybody else. It is, in a  
way, so in order to make their young  
hearts happy and to show you where  
gifts just such as all of them will ap-  
preciate can be bought, I want you to  
take a stroll with me through toyland  
today.

Of course, you expect to find all the  
old toys. They are there in superabun-  
dant, and it's no use to introduce old  
friends. There's a bunch of new ones  
out, however, that will delight any  
child in Washington. For instance:

You can buy this season, price from  
25 cents up to about \$3, a real flying  
machine, which, when properly wound,  
will circle the room for any youthful  
aviator. Of course, that's new. A lot of  
progress has been made within the year  
in big flying machines. The little ones  
naturally follow.

#### Doll Furniture.

One of the department stores shows  
something new in doll furniture. It is fur-  
niture made by a regular manufactur-  
ing house which has made over some  
of its best sellers in the big line into  
miniatures for dolls. Prices \$3 to \$10.

There's a piano with a player at-  
tached this Christmas. Just like the  
big ones, in a way. Price about \$1.

Trains are not new, but you may find  
some improvements over the old ones.  
The mechanical toys this season are  
more pretentious than ever, and at  
some of the stores mechanical locomotives  
with as high as twelve cars at-  
tached are shown. Price 50 cents to \$10.

A diverting new toy is a "ringing"  
frog, whose efforts are directed at a  
net, set up in the fashion of a tennis  
court net.

I run across three or four other  
games, too, all inexpensive and capable  
of keeping a youngster employed for  
hours. He will find a lot of fun trying  
to beat "Aunt Sally." Sally has a pipe  
of some dimension stuck between her  
teeth. The game is to "ring" it with  
rubber balls thrown from a specified  
distance.

#### "Phoebe Snow" Games.

There is another new one called the  
"Phoebe Snow" game. This is much on  
the order of the old "Nellie Bly."

A miniature theater, with stage, scenery,  
curtains, and almost everything a  
big theater has; is just the thing for  
some little girl or boy who has a liking  
for the drama. A lot of little actors  
with the child's theaters, the whole  
making an entirely novel gift. Prices  
from \$1 to \$10.

The above will give you something to  
think over for today. The merchants  
tell me that new goods are constantly  
being placed on their shelves now.  
They continue to advise early shopping,  
both for your sake and their own.  
A WISE SHOPPER.

### Famous Medium

EUSAPIA PALLADINO.

## SCIENTISTS TO TEST MEDIUM'S POWERS

Paladino's Efforts to Com-  
municate With Dead Await-  
ed With Interest.

NEW YORK, Nov. 12.—The outcome  
of efforts of Eusapia Palladino, the fa-  
mous Neapolitan medium who has ar-  
rived in New York, to reach the spirit of  
Prof. Cesare Lombroso, the Italian  
scientist and criminologist, who died re-  
cently, is awaited with the keenest in-  
terest by scientists and spiritualists  
here on account of the statement made  
by Lombroso shortly before he died that  
he would endeavor to communicate with  
Palladino from the spirit world.

Lombroso, whose authority in the  
world of science was unquestioned,  
staked his reputation on his faith in  
Madame Palladino's powers of communi-  
cation with the spirit world. The fa-  
mous medium has now announced that  
she will first justify this faith in Amer-  
ica, by bringing together the greatest  
spirits of the scientific and psychic world.  
The outcome of the experiment is con-  
sidered of unusual importance by those  
interested in this field of research.

Announcement was made this after-  
noon of some of the scientists who will  
participate in the seance. There will be  
eighteen members of the committee, in-  
cluding Prof. Hugo Munsterberg, of  
Harvard; Prof. William James; Dr. Jas-  
trow, professor of abnormal psychology;  
Dr. G. Stanley Hall, of Clark University;  
Dr. Morton Prince and Dr. Charles  
A. Dean, of New York.

Every effort will be made to test the  
genuineness of the medium's manifesta-  
tions. In addition to the scientists a  
number of stage magicians, including  
the noted Kellar, now retired, will at-  
tend to watch for sleight of hand tricks.  
As only seven persons can attend each  
seance the eighteen scientists will be  
arranged in three parties, each of which  
will attend a series of sittings. As the  
medium is physically unable to give  
more than one seance a week, it is ex-  
pected that the series will be a lengthy  
one.

## ALUMNI WILL DISCUSS NEEDS OF UNIVERSITY

Graduates of George Washington to Consider Financial  
Statement of the Institution, and Plan to Indorse Bill  
for Special Appropriation From Congress.

George Washington University's finan-  
cial troubles will come up for discus-  
sion at the annual meeting of the alumni  
association at the university building on  
the night of November 30.

At this meeting also indorsement of  
the bill introduced in Congress last ses-  
sion providing for the endowment of  
agricultural colleges and universities  
teaching the fine arts will be asked.

It has been declared by Prof. Richard  
Harlan and other members of the fac-  
ulty of George Washington University  
that the support obtained from this Con-  
gressional measure would solve the  
problem of bridging over the univer-  
sity's financial troubles, and therefore  
a strong effort will be made to get its  
indorsement by the alumni association,  
and also to organize a movement to  
urge the university's claims before Con-  
gress.

The annual election of officers also  
will come up at this meeting. E. C.  
Braunberger, president of the alumni  
association, within the next few days  
will appoint a committee to select can-  
didates for the various offices. This  
method has been decided upon this year

so as to eliminate every possibility of  
friction or suggestion that the choice  
of the candidates might have been in-  
fluenced by any faction of the associa-  
tion.

In the discussion of the financial af-  
fairs of the university, it is thought  
likely suggestions will be made to in-  
vestigate the value of the property in-  
cluded in the present endowment fund  
of the school. If this inquiry reveals  
an unhealthy financial condition or the  
immediate need of funds, it is likely the  
alumni will formulate a plan by which  
the university may be relieved of em-  
barrassment. Since the publication of  
the treasurer's annual report there has  
been some question as to the valuation  
of the property placed on the university's main  
building on Fifteenth street, certain  
members of the alumni asserting that  
a valuation of \$30 a square foot is too  
high, and that it should not be more  
than \$24 a square foot.

On the other hand, however, it was  
said that the treasurer's office today that  
inasmuch as the Union Trust site was  
purchased six or seven years ago at  
\$27.50 a square foot, \$30 is not an ex-  
travagant figure to put on the univer-  
sity's main site.

**Tomorrow a Very Attractive Display of**

**TOYS**

MANY of the little ones who were not able to visit the Opening of Toyland last Saturday have prevailed upon us to keep the special displays intact for their benefit, and every child who can possibly be present is invited to come to our Toy Store tomorrow.

**NEW TOYS AND NOVELTIES**

have been received and placed on exhibition since our opening, and many more new ones will be shown tomorrow. There is a multitude of little trinkets for the stocking and Christmas tree—and a great collection of large toys—in fact, too many to mention.

### Also, a Special Display of Mechanical Toys

including the latest one from Germany—a reproduction of a house afire—the fire depart-  
ment, working automatically, arrives and a stream of water is soon playing upon the  
blaze—and a number of other things impossible to enumerate, but which are equally  
fascinating and instructive.

#### "W. & L. Special" Dollar Doll

This doll is made expressly for us by one of the most favorably known manu-  
facturers in Germany. The face is very pretty and life-like—more so this year than ever  
before, and it has real hair and eyelashes, the same kind as used on the \$5.00 to \$10.00  
dolls—which add greatly to its appearance. It is full-jointed and 22 inches high, exact  
measurement. We believe it cannot be equaled at the price,

**\$1.00 each**

#### Specials in Dolls' Furnishings

We have secured another lot of Dolls' Furnishings, such as advertised for the  
opening, and shall place them on sale tomorrow at a very special price.
